

Cisco Room Series Market Report

As a highly rated, TrustRadius award-winning product, Cisco Room Series has firmly established itself as a quality option for Video Conferencing solution buyers, especially by offering excellent audio and video quality, easy to set up and use equipment, and smooth integrations with other software.

On choosing Cisco Room Series over Logitech:

“the user experience is not even close to any Cisco device.”

Martin Lostracco | Presales Engineer | Information Technology & Services Incentivized

On choosing Cisco Room Series over Poly Studio Series:

“The video quality is superior to that of Poly Studio. The way of operating the devices is very different since the Room Kit Series are professional compared to Poly Studio since it is only like a PC peripheral.”

Abel Tapia | Support IT | Evolucion Comuunicaciones SA de CV Incentivized

In their TrustRadius reviews, the most common pros of Cisco Room Series include:

- Video and audio quality
- Easy set up and customization
- Integrations
- Presentations and whiteboarding

On Cisco Room Series's audio and video quality:

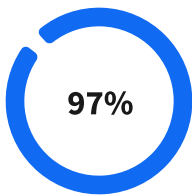

“When we were acting as a training department for onboarding our colleagues, we utilized the Cisco Room Series to conduct webinars. The high-quality video and audio, paired with content-sharing capabilities, ensured our onboardees received a comprehensive, interactive learning experience, regardless of their physical location, such as if they were connecting from home instead of the office.”
